In addition :

- The compliance is understood to be subject to the conformity with the conditions of storage, handling and use, taking into account the specific characteristics of the material or article, and the conditions such as prescribed by professional practices or codes.

- Our products are implemented utensils food and are in no way intended to serve as packaging.

This declaration of compliance is based on the following:

- Declaration(s) by suppliers of raw materials
  (components of the material by the present declaration)

- Overall migration testing

  - Acid acetic 3 % (4 hours at 100 °C)
  - Fat foodstuffs (olive oil) (2 hours at 175 °C) with reduction coefficient 3
  - Alcoholic 50 % (4 hours at 100 °C)

NSF/ANSI: Standard 2 establishes minimum food protection and sanitation requirements for the materials, design, fabrication, construction, and performance of food handling and processing equipment

- Testing of substances subject to restriction (including specific migration limit)

This declaration of compliance is valid for a period of 5 years. It should be renewed whenever compliance to the above is no longer ensured renewal change of evolution of regulation

This declaration is established in accordance with article 16 of Regulation (CE) N° 1935/2004 and the amended French decree N°2007/766.

This declaration is intended for: BÄKO- Zentrale Süddeutschland

LE CATEAU, 29th august 2014
